

Excerpt from Across the Jordan: Being an Exploration and Survey of Part of Hauran and Jaulan The circumstances which made the following work possible are these: About a year ago a firman was granted giving leave to survey the district lying between Damascus and Haifa, with a view to the construction of a railway. The concessionnaires appointed as their surveyor for the portion of country east of the Jordan Herr Gottlieb Schumacher, that part lying between Haifa and the River having been already surveyed by the officers of this Society for their great Map of Western Palestine. In the course of his work Herr Schumacher found it necessary, as well as possible, to make many scientific observations, notes, maps, and drawings which he afterwards embodied in the memoir which forms the greater part of this volume.
