

This is the first book-length treatment of the unique nature and development of Nietzsches post-Zarathustran political philosophy. This later political philosophy is set in the context of the critique of modernity that Nietzsche advances in the years 1885-1888, in such texts as Beyond Good and Evil, On the Genealogy of Morals, Twilight of the Idols, The Antichrist, The Case of Wagner, and Ecce Homo. Daniel Conway has written a powerful book about Nietzsches own appreciation of the limitations of both his writing style and of his famous prophetic stance.
