

This short critical introduction to Pierre Bourdieus thought is a model of clarity and insight. Where Bourdieus own writings are often complex, even ambiguous, Richard Jenkins is direct, concise and to the point. He emphasizes Bourdieus contributions to theory and methodology while also dealing in detail with his substantive studies of education, social stratification and culture. His book provides the best short English-language introduction to Bourdieus work. As Jenkins points out in the final pages of his book, criticism can be the sincerest form of flattery. I particularly relished his critical approach to the work of Bourdieu and believe that he has written a timely introduction which both undergraduates and experienced teachers will find stimulating and enjoyable.- Mike Hepworth, University of Aberdeen

Review of Research in Education, 1992, Marriage and the Family, A View of Society and Manners in France, Switzerland, and Germany: With Anecdotes Relating to Some Eminent Characters, Volume 2, Dios Rome: An Historical Narrative Originally Composed in Greek During the Reigns of Septimius Severus, Geta and Caracalla, Macrinus, Elagabalus and ... and Now Presented in English Form, V. 5, Red Wine Required,
