

# High-level Parallel Programming Models and Supportive Environments: 6th International Workshop, HIPS 2001, San Francisco, CA, USA, April 23, 2001 - Proceedings (Lecture Notes in Computer Science) (Paperback) - Common

These are the refereed proceedings of the 6th International Workshop on High-Level Parallel Programming Models and Supportive Environments, HIPS 2001. The focus of the book is on high-level programming of networks of workstations, computing clusters, and massively parallel machines.
