

Learning spaces offer a rigorous mathematical foundation for practical systems of educational technology. Learning spaces generalize partially ordered sets and are special cases of knowledge spaces. The various structures are investigated from the standpoints of combinatorial properties and stochastic processes. Learning spaces have become the essential structures to be used in assessing students competence of various topics. A practical example is offered by ALEKS, a Web-based, artificially intelligent assessment and learning system in mathematics and other scholarly fields. At the heart of ALEKS is an artificial intelligence engine that assesses each student individually and continuously. The book is of interest to mathematically oriented readers in education, computer science, engineering, and combinatorics at research and graduate levels. Numerous examples and exercises are included, together with an extensive bibliography.

Une poignée d'humains: Fictions (French Edition), The Furrow Behind Me An Autobiography Of Hebridean Crofter, The Life, Services, and Character of Edward Everett: A Sermon Preached in the First Church, Jan; 22, 1865 (Classic Reprint), Argonautique De Valerius Flaccus: Ou, La Conquete De La Toison Dor, Volume 2 (French Edition), Nouvelle encyclopedie poetique: Ou, Choix de poesies dans tous les genres (French Edition), Dictionary of information technology,
