

From his childhood forward through the Korean war and home again, Hiram Walker is a master of poor choices. Even his decision to marry a south Korean woman and bring her to the states leads to a disastrous outcome. In *The Lost and Found Man*, readers are taken through a series of near fatal decisions and outcomes that leave them wondering if Hiram will ever find his way. It's not until he responds to a message from his former tank driver, Jack Franklin, that Hiram finally faces all his failures and begins the journey toward healing.
